1.6 Central American and Caribbean Games Records

- These records can be established in all of the World Archery Categories contested at the Central American and Caribbean Games
- They can be set and broken by archers from WAA Member Associations at the following events:
 - The Central American and Caribbean Games

2. For a score to be considered as a new record it must exceed the previous record score by at least one point. To break a record already established with the maximum possible score, the new score must equal the maximum possible but must exceed by at least one X the total number of X's shot in the current record.
3. A score that ties the existing record will not be considered as a record.
4. If a record is broken by two or more archers with the same score at the same event, all of the scores will be accepted as records and the archers who shot them would be regarded as record holders.
5. Records shot at Outdoor World Ranking Events, and Indoor World Championships and World Cup Events will be accepted by the World Archery Americas Secretary General within the next three days after the competition results are made available.
6. Scores shot at events registered by WAA Member Associations in the World Archery Calendar which exceed the current records may be considered by the Secretary General as records if the following requisites are met:
 - The National Federation submits a record claim form to the Secretary General not later than 10 days after the score was shot.
 - The record claim form is accompanied by a photocopy of the scorecard and the complete list of results of the event.
 - The record claim form is accompanied by a statement of the National Federation indicating that the score was shot a World Archery

Licensed target faces at a tournament conducted under World Archery Rules.

- The Secretary General verifies that the event at which the score was shot was actually registered by the National Federation involved.

7. World Archery Americas recognizes records shot in the following events

- The World Archery 1440 Round total (distances per bow type, gender and age category as specified by World Archery).
- The 72 arrow Qualification Round total (distances per bow type, gender and age category as specified by World Archery).
